

Your heart beats for computer science - join our team!

Sontheim is a leading system provider from the Allgäu region for automation, diagnostics and connectivity solutions. Our range of services includes the development and production of innovative hardware and software systems. We are one of the big players in the development and series production of diagnostic and connectivity systems for mobile machinery. We want to further expand our market leadership with forward-looking technologies.

In the context of our product developments we are looking for motivated students (m/f/d) with immediate effect:

Thesis in the field of telemetry, cloud and app technology

Your area of responsibility:

- Active participation in the area of our app and cloud systems, in the implementation of product ideas and prototypes
- Creation of small software units on different platforms
- Support with system/software architecture
- Joint definition of the final thesis, according to your strengths and our current projects

Your profile:

- Student of computer science, business informatics, game engineering or comparable course of studies
- Interest and passion for programming
- Self-initiative and commitment
- Basic understanding of software
- Nice to have: Experience with Linux as well as programming skills in NodeJS and Python

This is what you can expect from us:

- The stable environment of an established medium-sized company paired with the charm of a young team
- The opportunity to develop in a future-proof and exciting subject area
- Working with large and well-known manufacturers from the commercial vehicle or mechanical engineering sector
- A supervisor who always has an open ear for questions, progress and discussions
- Working where others go on vacation. Kempten - the capital of the Allgäu region
