IN KOOPERATION MIT
FACT* „FIELD“

Sontheim is a leading system provider from the Allgäu region for automation, diagnostics and connectivity solutions. The range of services includes the development and production of innovative hardware and software systems. For mobile machines, we are one of the big players in the development and series production of diagnostic and connectivity systems. We aim to further expand our market leadership with forward-looking technologies.

As part of our quality management, we are looking for motivated students (m/f/d) with immediate effect:

Final thesis / practical semesters / working students (min. 3 months, approx. 20 h per week)

Establishment of an environmental management system acc. to DIN EN ISO 14001:2015

Your area of responsibility:

- Support of the project team in the implementation of an environmental management system according to DIN EN ISO 14001
- Carrying out a delta analysis for the systematic implementation of the standard requirements of DIN EN ISO 14001:2015
- Creation and adaptation of environment-specific process flows and instructions for adoption into the integrated management system
- Recording of environmentally relevant operating data including the development of a measuring system for KPI's (electricity, water, energy, waste, ...)
- Elaboration of a waste disposal concept
- Development of potentials for resource conservation and energy saving in the production area

Your profile:

- Enrolled student in the field of energy and environmental technology, industrial engineering, mechanical engineering, business administration or similar
- Knowledge in the field of quality management or environmental management is an advantage
- Good knowledge of German and English, both written and spoken
- Confident in the use of MS Office (Word, Excel, PowerPoint)
- An independent, project-oriented, systematic and conscientious way of working with analytical skills
- Assertiveness and perseverance

This is what you can expect from us:

- An internship or a working student job (m/f/d) in connection with your final thesis
- Individual arrangements that suit you and your situation
- Freedom to write your thesis independently
- A supervisor who always has an open ear for questions, progress and discussions
