

Your heart beats for electrical engineering - join our team!

Sontheim is a leading system provider from the Allgäu region for automation, diagnostics and connectivity solutions. The range of services includes the development and production of innovative hardware and software systems. For mobile machines, we are one of the big players in the development and series production of diagnostic and connectivity systems. We aim to further expand our market leadership with forward-looking technologies.

In the context of our product developments we are looking for motivated university graduates (m/f/d) with immediate effect:

Entry as employee in the area of our hardware development

Your area of responsibility:

- Development and commissioning of electronic systems for the automotive and industrial automation sectors
- Commissioning and validation of electrical circuits, electronic and mechatronic systems
- EMC measurements and tests
- Development and setup of test equipment
- Technical documentation

Your profile:

- Completed studies in electrical engineering or a comparable degree
- Knowledge of analog and digital circuit technology
- Flexibility, commitment and sense of responsibility
- Basic knowledge in 3-D design
- Business fluent German, written and spoken English (B2)
- Ability to work in a team

This is what you can expect from us:

- The stable environment of an established medium-sized company paired with the charm of a young team
- The opportunity to develop in a future-proof and exciting subject area
- Working with large and well-known manufacturers from the commercial vehicle or mechanical engineering sector
- A team leader who always has an open ear for questions, progress and discussions
- Working where others go on vacation. Kempten - the capital of the Allgäu region
